boson. GROUP

I had the pleasure of working with Alexander Moiseev's team on two innovative projects: an AI-powered chatbot and the web platform for interviews, Huntica. Alexander's exceptional skill and creativity were evident in his work at Boson Group, as well as in his contributions to the development of the Huntica AI platform, revolutionizing the HR Tech industry by offering advanced audio transcription capabilities with numerous features.

In addition, Alexander helped develop an AI chatbot that leverages neural networks, enabling it to continuously learn and adapt to the unique needs of each user.

Highly organized, excellent communicators, and a pleasure to work with, Alexander and his team deliver exceptional work.

Sincerely,

Vasily Kostin

Chief Executive Officer
